

USAF Medical ETT -- Assembling and Distributing Toiletry Kits
Paktia Regional Military Hospital, Gardez, Afghanistan
February 24-28

YOU made this possible !!

With the help of fellow team members several kits were assembled and distributed this week. Most of the soldiers were surprised at such a "gesture of generosity". These are a few snapshots we took. These kits are a "hot" item, more than once I've had to explain to certain ANA staff members that they were donated from America for our inpatients only -- not hospital staff.
