

Toiletry Kit Distribution

Paktia Regional Military Hospital - USAF Medical Embedded Training/Mentoring Team
February 29 thru March 31

Below are photos of our team members and interpreters helping us distribute and explain to our inpatients the contents of their toiletry kits (especially the foot/body powder). The pictures are small but high resolution and can be seen more vividly at 150% to 200% zoom. [We've now distributed 42 kits since the 25th of February.](#)

Thank you for helping make this a success!!
