

OLD GLORY

Our flag, Our flag, Oh how proud it stands
Stars and stripes flowing over this great land

The Star Spangled Banner should start the spark
When you place your hand upon your heart

Can you feel the tingling the warmth and the pride?
For this piece of cloth holds it all inside

Lives have been sacrificed for what it represents
So let's take pride and salute it without anyone's consent

We should pay it tribute every time we can
For it stands for freedom upon our land

Americans should protect it at home and afar
We must keep it safe from those who would mar

Let us never forget the old red, white and blue
For it stands up with pride for me and all of you
